The Daily Herald.

A gawky backwoods boy, was once at a depot on one of the Georgia railroads, and was of course deeply interested in gazing—for the first time—at the 'mighty fairs.' Finally he got inside of a car, and while indulging his curiosity, the whistle screamed, and the bell rang, and the steam horse began to surge at the rate of 'two-forty.'

'O lordy,' shouted the boy, 'let me git it, stop it, I aint a-goine;' and bursting forward, he opened the door and jumped out on the platform. Just then the train was crossing a deep, cavernous looking gorge on trestle-work, and seeing the earth and tree tops beneath him, he fainted and fell. Directly he came to, and looking up to the conductor who stopped by him, he exclaimed with a deep sigh, 'O lordee, stranger, *has the thing hit?*'

As astronomer, gazing at the moon, fell into a pond. 'Had you looked into the water,' said a countryman to him, 'you might have seen the moon; but, by gazing on the moon, *you could never have seen the pond.*'

Another 'wise man of Gotham' made his servant sleep in a chamber adjoining his own. He cried out to him, on one occasion, 'George, am I asleep?'—'Yes, sir,' replied the conscientious George.—'Ah, good!'

An actor with a very homely phiz was acting Mithridates, when a beautiful empress said to him. 'Ah my lord, you change countenance.' Hook, who was in the pit, exclaimed, 'Don't stop him, don't stop him; for heaven's sake, let him.'

[From the Utica Morning Herald, Jan. 29, 1858.]

Benjamin F. Walker, of Hallock, in Onondaga, is the subject of a remarkable cure of disease of the eye. He had been seriously afflicted for six months or more, and the remedies applied seemed to do him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Feb. 18, 1858.

We learn that Dr. Lighthill, assisted by Dr. Peters, has performed an operation for the cure of cross-eyes upon the eyes of Miss Lyda C. Tomkins, of Truxton Cortland county, with perfect success. TO CORRESPONDENTS:

No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer; not necessarily for publication, but as a guarantee of his good faith.

We shall beg to inform our readers that we do not hold ourselves responsible for the opinions of our correspondents.

SUPPOSE a merchant, with his store full of goods, finds that he has got to submit to some sacrifice in order to meet his demands, what is the best thing he can do? The hypothesis is probable enough in these times, but the answers to the practical question will be various.—They might to be, because the method which will afford relief to one, is not advisable, or if so, not available, to another.

But still, as a general answer, what is better than this:—Cut down your prices, advertise vigorously and sell off your goods!

In the first place, if a sacrifice is unavoidable, and the result to the same pecuniarily to the dealer, it is far better that the community in general should receive the benefit of it, than that it pass wholly to one or two brokers. Instead of an enormous per centage, in pursuance of a doubtful system, being thus thrown into the coffers of a few individuals, the cheaper necessaries of life would enter thousands of households, diffusing comfort everywhere. Thus the burdens which rests upon the mercantile class, instead of being made tributary to the avarice of the moneyed class, would be turned to solid benefit of all the other classes.

Again, such a course would keep trade going. Tight as money is, not a cent has been annihilated—it exists all about somewhere. A great deal of it, in separately small sums must be exchanged for the numberless articles of food and raiment required. If prices hold up, the exchange will be as scanty and put off as long as possible. But let reduced prices be advertised, let it be understood that goods must be sold at all events, and the stores will be crowded under a little panic of the right kind—a dollar will be spent here, and five or ten there, resulting in hundreds or thousands to the enterprising dealers. Thus may hoarded specie be drawn from its hiding places. Thus the healthy circulation of money will be kept up, and the basis maintained for an easy renewal of prosperous times. Everything will grow better by degrees, while of him who recklessly sticks to old prices and wholly relies on borrowing, it may be said, the last end of that man is worse than the first.

Of course, to many individuals this method is not feasible. They cannot wait, or their stocks would be insufficient to realize their needs, or other good and indisputable reasons might be cited. But where it is impossible, we believe it to be advisable on every ground of personal and public expediency. If advertising is indispensable, when customers are rushing to buy of their own accord, and only want to know where to go, doubly necessary is those times when the fact of *cheapness* is felt to be the all-important fact.

To avoid the danger of lightning during thunder storms, persons in houses should sit or lie in some place as far distant as possible from the chimney, and the most exposed part of the walls—the middle of the room, if it is large, is the safest locality. Sailors on the sea should keep as far from the masts as possible, and farmers in the fields should never seek shelter under trees. Horizontal strokes of lightning sometimes take place, and several persons have been struck while sitting in an open window during thunder storms. Every window of a room in which persons are sitting in such cases, should be closed; a flash of the fluid, which would pass through an open window into an apartment, will be conducted down through the floor and wall to the earth if the window is shut.

By an arrival from Rio de Janeiro Saturday, at New York, we have dates from that place to the 23th of May, and later intelligence from the River Plate, from which it appears that the anticipated difficulty between the Government of Buenos Ayres and Gen. Urquiza has at last come to a head, resulting in active preparations for war. There is also a prospect of a difficulty between Montevideo and Brazil.

Beware of the Crafty!

Chained as we are to the wheels of Popular favor, we nevertheless, claim the right of opinion, and a full and free expression of the same. The right that belongs to the masses we claim for ourself; and we will cling to the right of conscience, which God in his wisdom, has dispensed to us, as entirely as to him who claims all the love and charity, that a reading and reflecting public may be pleased to bestow upon him.

Rogue would seem, from the abundance of their own feelings, and by the diet of extreme wire pulling, to claim all the public avenues of actual sustenance; and if suffrage and emoluments are bestowed, they alone must be the recipients. Thus selfishness and individual arrogance are too often made the hobby horse for certain factions to ride into power with, by the possession of important office emoluments, and distinctions, the suffrages of a free people have been bestowed to bestow upon intriguing and unprincipled sophists.

Without insinuating upon individuals and without charging in a personal manner any one, in our own mind's eye, we appeal to our readers conscience, if our reflections do not apply very directly to many such persons, now even made rich and "fat headed," by the blind tolerance of our public generosity towards such "wolves in sheeps clothing."

Even large incorporate bodies have been swindled and State institutions egregiously wronged, by carrying upon the public's shoulders, these cliques and graspers after the people's money. These facts in the line of our experience, should teach us the lesson, that a people's choice should be made with a strict reference to ability and true merit; and any one brought forward by the crafty few should be well examined upon, before being hoisted to a station of honor and trust—on the principle that a "burned child dreads the fire."

T. B. Peterson & Brothers, of Philadelphia, Pa., have surpassed themselves by commencing, in weekly issues, the republication of Sir Walter Scott's novels, at the low cost of 25 cents a number, or five dollars for the complete set, comprising thirty-two stories. We are very glad to see so cheap an edition of novels so much superior in their tone and morals—to say nothing of their genius—to the watery trash that is written, and read, we suppose, by foolish people now-a-days. Better read the Waverley novels, and re-read them to the fiftieth time, than to waste time and spoil good taste over the bloody and thunder or yellow-covered sensation novels. The Petersons' have thus far issued ten numbers, containing each a novel complete, viz., Old Mortality, Woodstock, Waverley, Ivanhoe, Rob Roy, Quentin Durward, Guy Mannering, Kenilworth, The Abbot and The Antiquary; and we would advise all our readers to send to the Messrs. Petersons' for a set of these popular and undying works of the great novelist. They are now issued at the rate of one a week, and the whole twenty-six volumes can be had free of postage, by sending five dollars to the publishers. All persons now have an opportunity here to secure his works, which has never before been offered, and which may never occur again. The present chance should be taken advantage of by all.

The Auburn Daily Advertiser of Thursday says: Many of the farmers of the town of Moravia have commenced harvesting their wheat to-day. Mr. W. Hayden of that town commenced cutting his wheat to-day; it never was better, and averages over thirty bushels to the acre.

A gentleman announces in the Buffalo Advertiser that he will deliver a lecture in that city, in the course of which he will exhibit "a model of his Steam battering Ram, by which two men can whip out any war vessel now afloat, without firing a gun or losing a man; and also a Model Cannon, that will load, aim, fire, and wash itself."

Somebody emptied upon a wharf in Philadelphia a quantity of cherries which had been used to flavor rum. About twenty pigs partook of the fruit, and were made very drunk thereby. Being frightened, they began to squeal, and in other ways to make themselves ridiculous. In the owlish gravity of their countenances they were said to resemble inebriated humanity very closely.

The Oberlin Rescuers Printing a Paper.

The Rescuers is the title of a small sheet edited by the Oberlin Rescuers in jail at Cleveland, the first number of which was issued on the 4th of July. The principal editor is Prof. Peck, who explains the appearance of the sheet as follows:

"After all the 'political prisoners' had remained in jail for seventy-five days, they began to feel themselves possessed of 'thoughts, that breathed and words that burned.' We not only wish to utter them, but we wish to print them. Could the thing be done! We looked around for printers and found among the 'prisoners' two rusty and dilapidated 'typos,' one of whom had not handled a 'stick' for 18 years. Would the Sheriff allow us a corner of the jail for a printing office? We asked him. Generous as ever, he replied, 'Certainly, and I'll help you too, if I can.' 'O, where shall type be found?' we next enquired. The generous purchaser of our old printing office responded by loaning us a font of small pica, and the liberal publisher of the Cleveland Daily Leader (the very paper which would please you, gentle reader) added more, with other things. For a 'plane' we used a carpenter's, with the irons knocked out. A policeman's club answered for a mallet in 'taking proof,' and for the other purposes, we could select a pounding instrument from a large pile of shackles which lay at our feet. A fellow prisoner supplied us with 'side sticks' 'quoins' and 'reglets,' made from a white-wood board.

Another prisoner sawed us a form board to make a 'rack.' (Quite like a 'fellow' that, but we must settle it with the commissioners.) For a shooting stick—not the dangerous kind which we have understood 'rescuers' sometimes use, but a simple instrument—we hewed out a piece of stave, and the door-stone answered for a 'table.'

This furnished, and with the ample space of just five feet by ten, for a printing-office we proceeded to establish the Rescuer. If we labor under difficulties it is but appropriate, for 'rescuers' always do.—We forgot to express regret that we could not procure STAVES. Many were needed. We must ask our readers to supply the emphasis according to taste."

FIFTY.—The Buffalo Daily Republic of Saturday says:—

We were in the country a few days this week. Down the Niagara, as far as Lake Ontario, the cherries were most abundant, and no season within our recollection has produced fairer or greater varieties of this choice fruit. The apple trees are loaded, and the prospects of a large gathering of this most essential fruit are excellent.—Other kinds of fruit, pears, quinces, &c., bid fair to be abundant. Peaches will not be plenty, though we saw some trees in Lewiston hanging quite full. We shall not be deprived of peaches the coming season.

MURDEROUS OUTRAGE.—One of the most atrocious outrages ever recorded was perpetrated in this city on Saturday morning, by a negro named Mason. About three o'clock in the morning he made a forcible entrance into the house of a white woman living on Elm street, and dragging her from her bed with great violence, he repeated an outrage upon her person until she was nearly dead. He overcame her resistance, by that she was unable to make adequate resistance, or cry for assistance loudly enough to be heard. Her condition, when he fled, was such that he had ample time for escape before she could start any one in pursuit. It was supposed that he took the Lake Shore for the West, and the Police will give him a small chance of eluding justice. This black villain is a man of pretty large size, dresses in dandyish style and wears a moustach. —*Buffalo Express.*

It is taken for granted that, should the Austrians be driven out of Italy, a French army of observation will have to be kept there for some time to come. Several of the French general officers, it is said, upon the strength of this conviction, have taken house at Milan and Genoa for two years and upward.

Some one wants to know whether a man cannot vote by telegraph. This is a question for political wire workers to solve. Our opinion is that it depends entirely upon the regulation of the poles.

A young mulatto girl, traveling with her mistress, was forcibly abducted from Detroit, Thursday, by a party of negroes. She was taken to Windsor, on the opposite side of the river, where she will have an opportunity to starve, or lead a life of prostitution.

A Negro, on being examined, was asked if his master was a Christian. "No, sir, he's a Member of Congress," was the reply.

A commissioner thinks the sum of $200,000 will not pay for the fireworks consumed in the Empire State on the Fourth.

NEWS AND MISCELLANY.

The Cleveland Herald gives a list of twelve vessels that have sailed from that port this season for Europe.

Among the advertisements in a late London paper we read that "Two sisters want washing."

An army order, issued by Gen. Scott, directs that great attention be bestowed hereafter upon the bayonet exercise.

The Auburn Advertiser announces thirty-nine arrivals and thirty-four departures from the State Prison for the last week. Four new comers were from Buffalo.

A religious journal is urging the duty of establishing the washing of one another's feet as an ordinance of the Church. A very wholesome, if not holy, practice.

The Adrian (Mich.) Watchman, a religious paper, says that Rev. James G. Pattison has been accused of seducing Miss Cogswell, a girl fourteen years of age, who resides in Hudson in that county. He has hitherto commanded the highest respect, and the girl belongs to a respectable family.

It is no longer questioned that these Machines are the best in use for family sewing. They

IT IS NOT A CURE-ALL.

For Inflamatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, is the result of its using a remedy for all ills, but control over but one of how but one kind, and accomplishes but one thing, in which, namely, Inflamatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or else.

NEW DISCOVERY. Its peculiar significance is, that it weighs the relative loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by precipitating an equilibrium, of the fluids to the seat of the want of which is the sole cause of inflammation.

NOTICE TO INVALIDS! The following forms widely the equilibrium fluids wanting, and many not here mentioned, that have more or less fever or pain, can as easily adjusted by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Pain, Inflamed eyes, ears, nose, lungs and Throat, Sore throat, Bronchitis, Croup, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all fevers and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—it does not leave the fluids to remedy it—but does equalize the fluids by removing it—so that system all arrangement causes disappearance. Prescriptions carefully done by an old physician. Druggist who has this valuable medicine for sale.

Scrofula, or King's Evil.

constitutional disease, a corruption of the [illegible] by which this fluid becomes diseased, and poor. Being in the circulation, it [illegible] the whole body, and may burst out in [illegible] on any part of it. No organ is free from attacks, nor is there one which it may not [illegible]. The scrofulous taint is variously caused [illegible] disease, low living, disordered or [illegible] food, impure air, filth, and filthy [illegible], the depressing vices, and, above all, by venereal infection. Whatever be its origin, [illegible] hereditary in the constitution, descending [illegible] parents to children unto the third and [illegible] generation;" indeed, it seems to be the [illegible] of them who says, "I will visit the iniquities [illegible] the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the arrest of the ravages it makes in its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections, which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, ULCERATIONS, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and rejuvenate this vital fluid, without which sound health is impossible in consumptive constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compounded that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and vitalize, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is laboring with pain or physical debility is recommended to find his health in every remedy prescribed by a remedy as cure so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agents below named is pleased to furnish gratis our American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and often dangerous diseases of the lungs by its use. Where once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies, based upon the sympathetic have failed and been discarded, this has gained friends by every trial, confidence benefits as the afflicted, they rise more finger, and produced cures less numerous and too remarkable to be forgotten.

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and enervation; Leucorrhœa, or muscular weakness of the womb; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great palpitation of the heart, asthma, trembling and sore throat; shaking of the arms and limbs, pimples on the body, and in various parts of the body, dimness of eye-sight, loss of memory, dizziness of the head, prostrate pains in various parts of the body; pains in the back and limbs, rheumatism, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Lucorrhœa or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, it wholly one out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual system, and arise from morbid excitement and chronic inflammatory state of morbid irritability, hence the want of success on the part of old School doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without a chemicals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, to any part of the country, from an accurate description of their case by letter and have the medicine sent them by mail or express.

Young men suffering from these fearful ills, will receive for Dr. a series of Health Rules, and perfect chart of cure, which will be to them a true point star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. T. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary complaints by Dr. Churchill's new Discovery—the HYPOPHOSPHITES OF LIME AND OF SODA—entitles it to the confidence of Consumptives in the stronger terms to be registered as an incurable malady.

Many thousands of physicians have already adopted this treatment with almost invariable success, but to Consumptive only a moment to try Dr. Churchill's Remedy.

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

In Every Example in Consumption

as Quickness in its Incipient Stage, but also in Its Most Aggravated Condition

to Relieve and Cure

in Comparison to Any Other Remedy.

"In my practice have I found the equally fail so positive curative that could reasonably be expected from it.

"Not all twenty-two cases in the third or last stage, treated as my directions, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

☞ This Remedy is the most powerful generator of blood known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on defective vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. T. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No true or other drug should be combined with them, or taken at the same time.

☞ Price, $2.00, or three bottles for $5.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished in the proportions.
